Rite-View™

Improve team readiness and operational performance.

Typical display screens burden operators with complex, uncorrelated data and leave it to them to create useful information. In contrast, our Rite-View software does the deciphering for you. Rite-View's intuitive displays also provide easy-to-grasp data intelligence, which enables your operators to work smarter, faster, and more effectively.
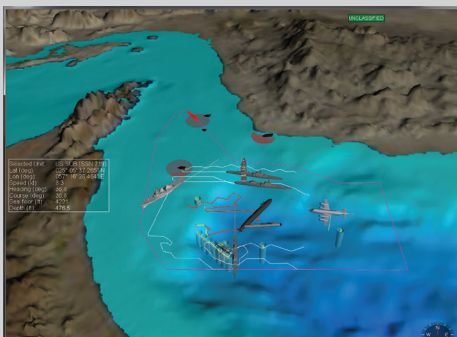

- Aggregates and analyzes a multitude of data from various sources and presents it in intuitive, 4D (3D over time) displays that improve the efficiency and effectiveness of your mission-critical operations

- Increases individual and team readiness when used as a training and development tool, allowing operational planning, rehearsal, event reconstruction and analysis, and post-operation playback/evaluation

Turn data into intuitive, useful information.

Rite-View collects data from a virtually unlimited number of sources and converts it into meaningful, intuitive information. Whether you are in charge of emergency response management at a power plant or military mine countermeasure operations in the ocean, Rite-View improves the accuracy and efficiency of your operations.

- Improves decision-making performance with geo-referenced 3D display renderings made over time (4D) that enhance the execution accuracy and timeliness of mission-critical military and commercial operations

- Maximizes efficiency and productivity by easily configuring to individual operator roles, objectives, and needs via an intuitive Human Machine Interface (HMI) – users get only the information they need to perform their tasks

- Employs real or simulated data to support live, virtual, and constructive (LVC) events for training and development purposes

- Enables the aggregation and analysis of higher volumes of data complexity via Advanced Data Fusion (ADF); supports a range of military and commercial applications such as sonar operations, ship command and control, virtual system training, emergency management response, and more

- Supports various levels of personnel, from tactical users and operators to command and control personnel and senior leaders with broader responsibilities

- Features an open architecture to integrate easily with a broad range of military and commercial systems and applications

- Converts real-world/real-time data, historical data, and data from other sources with Advanced Viewport Technology (AVT), producing precise and accurate 3D renderings that are richer and more robust than traditional screen displays

Rite-Solutions | 1 Corporate Place | Middletown, RI 02842 | 401.847.3399 | rite-solutions.com

Gain an *Information Advantage™* – and a competitive edge.

Rite-Solutions™ designs, develops, and deploys mission-critical software solutions and systems to help you convert complex data into valuable intelligence. Our solutions provide a sustainable, competitive edge – an *Information Advantage™* that empowers your organization to:

- Access enterprise-wide information anytime, anywhere via open and integrated system architectures
- Transform data into actionable solutions via data fusion and intuitive displays that aid decision-making
- Ensure your personnel develop and apply essential knowledge and key skills through training, simulation and decision-support-tools

From developing innovative, high-tech solutions in undersea warfare to improving the performance of a corporate workforce, Rite-Solutions helps optimize your systems, people and processes to achieve an information advantage.

Our areas of expertise help you achieve an *Information Advantage™*

From a Command Decision Support System for the US Navy to an integrated content management system for a global healthcare enterprise, Rite-Solutions has helped its clients achieve the *Information Advantage™* and a competitive edge. Combining small-business agility with CMMI Level 3 discipline and ISO 9001:2015, ISO 14001:2015 certifications, we develop innovative, reliable and affordable solutions in seven primary areas of expertise:

- System of Systems (SoS) Development, Integration
- Business Systems Development, Sustainment
- Information Technology (IT) Services, Support
- Open Systems Architecture Integration
- Structured Content Management Solutions
- Learning and Performance Solutions
- Cloud, Cloud Migration
- Cybersecurity

Join our growing list of world-class customers.

For more than 15 years, Rite-Solutions has developed mission-critical systems for leading government and commercial customers worldwide, many of whom have been with us for more than 10 years. We welcome the opportunity to provide you with the innovation and trusted service that are Rite-Solutions hallmarks.
