Rationale for Adding Team Member

Technical Capability

FSK Technology Services, Inc. specializes in:

- instructional technology
- education services
- technical training
- training support services
- technical documentation

Significant experience in specialized, custom technical training and training management, including needs analysis, development, delivery and support for training technology methodologies and evaluation to produce dynamic, repeatable, self-sustaining training programs.

Using Instructional Systems Development (ISD) approach to training, provides customers with the most appropriate training tools – technical documentation, tutorials, computer-based training (CBT), web-based training (WBT), simulation and multimedia.

Provides technical documentation, on-line tutorials, CBT, CAI, WBT, job performance aids, simulation and modeling, distance learning. Also provides program management, organizational development, and management training.

Other capabilities include strategic IT planning, technical support and consulting services, programming and technical IT services.

Task that Team Member will Perform

Relevant tasks as needed, such as: instructional technology, education services, technical training, training support services, technical documentation.

Functional Area of the SOW that Team Member will Perform

- 1) Training Support (SOW 3.18)
- 2) System Design Documentation and Technical Data Support (SOW 3.5)
- 3) Information System (IS) Development, Information Assurance (IA), and Information Technology (IT) Support (SOW 3.12)

Impact of Adding Team Member in Meeting Subcontracting Goals
